

I pay for XM radio and I don't believe that the government should control what I want to buy from XM. I am an adult and I have the right to buy what I want. Please do not let regular radio try to tell you what I want to listen to. It is not of their business. I firmly believe that you have let too many big companies to own several radio stations. They control too much of what they want us to listen to. I hate big radio stations that are part of a big company. Don't do that to the XM radio. I should be permitted to hear from them anything I want to buy. That is my control. not yours.
